MENU
POWER DOWN & (HOLD DOWN TO TURN ON USB CHARGER)
CLOCK
USB 5V / 500MA OUT

PANIC AND ALARM SET (STANDBY MODE)
MASTER UNLOCK (CLICK 2X) (AFTER ALARM SET)
CHIRP
ALARM STOP & REMOTE SHUT OFF

BEFORE YOU RIDE:

- ☐ CHECK FOLDING MECHANISM
- ☐ CHECK ALL BOLTS ARE SECURE AND TIGHTENED
- ☐ FULLY CHARGE BATTERY BEFORE RIDING
- ☐ FAMILIARIZE YOURSELF WITH BASIC RIDING SAFETY
- ☐ WEAR PROPER SAFETY GEAR
- ☐ CHECK TIRE PRESSURE (50 PSI)
- ☐ CHECK AND TEST BRAKES
- ☐ CHECK FOR DAMAGE OR CORROSION
- ☐ MAKE SURE PLUGS ARE SECURE
- ☐ DO NOT RIDE IN RAIN

TO TURN ON:

PRESS THE LIGHTNING BOLT BUTTON TWICE UNTIL YOU HEAR A FAST CHIRP

LONG PRESS THE POWER BUTTON UNTIL YOU SEE THE LCD COME ON

IMPORTANT NOTES:

FOR CLEANING
USE A SOFT WET CLOTH TO WIPE THE FRAME CLEAN. SCRATCHES CAN BE POLISHED WITH FINE GRIT ABRASIVE PAPER. DO NOT WASH YOUR SCOOTER WITH ALOCHOL, ACETONE, OR OTHER CORROSIVE OR VOLATILE SOLVENTS. THESE MAY DAMAGE COMPONENTS AND APPEARANCE OF YOUR SCOOTER. DO NOT WASH WITH A POWERWASHER OR HOSE.

AND STORING
DO NOT STORE THE SCOOTER IN EXTREME COLD OR HOT TEMPERATURES. CHARGE OR DRAIN YOUR BATTERY UNTIL IT IS AT 50% FOR LONG TERM STORAGE. MAKE SURE TO CLOSE THE RUBBER CAP ON YOUR CHARGING PORT. DO NOT STORE OUTDOORS, AS YOU MAY DAMAGE YOUR ELECTRICAL COMPONENTS. MAKE SURE TO SET YOUR ALARM 'ON' TO PUT THE SCOOTER IN STANDBY MODE.

AND ABOUT YOUR BATTERY
DO NOT PUNCTURE YOUR DECK OR BATTERY. REFER TO YOUR LOCAL LAWS FOR BATTERY RECYCLING. OPERATING AT COLDER TEMPERATURES CAN AND WILL AFFECT BATTERY PERFORMANCE. WE RECOMMEND WARMING YOUR BATTERY UP BEFORE RIDING IF YOU ARE EXTREME COLD TEMPERATURES (AKA NOT CALIFORNIA). DO NOT DISSASSEMBLE OR SERVICE YOUR BATTERY.
